Resolution No. 16, 1936

Adopted, April 17, 1936.

WHEREAS, Thomas D. Pierce and Associates of Indianapolis, Indiana, has submitted and proposed an agreement to be entered into by the Board of Public Works and Safety of the City of Terre Haute, Indiana, which proposed agreement is in the words and figures as follows, to-wit:

AGREEMENT

WHEREAS, The City of Terre Haute, Vigo County, Indiana, hereinafter known as the First Party, is interested in finding out definitely at what price the water utility property operating within said City and its environs can be obtained; and, if at a fair and reasonable price, the City may be interested in the acquisition of the water works, and also is interested in finding out whether under city ownership all necessary replacement of property items could be made from time to time without causing an increase in the water rates, and

WHEREAS, Substantial increases in prices of public utility property items and in financing costs are probable in the near future, making early action advisable; and

WHEREAS, Under appropriate statutes of the State of Indiana, said City may acquire the property of said public utility by negotiation or by condemnation proceedings; and

WHEREAS, Under appropriate statutes, for the purposes of acquiring the said property of said water utility, said City may issue and sell revenue bonds, the proceeds of same to be used in the payment of said property and the costs of its acquisition, said bonds, together with the interest thereon being payable only from revenues of said utility, and the same do not constitute an indebtedness of said civil city and

WHEREAS, Thomas D. Pierce and Associates, Public Utility Analysts, of Indianapolis, Indiana, hereinafter known as Second Party, have twenty-

five years experience in public utility matters and are competent to assist the City by preparing and furnishing the City all necessary engineering, accounting, statistical and financing reports; by assisting the City in negotiations, and in procedure, etc.

NOW, THEREFORE, Said First Party does hereby agree to and does retain said Second Party to assist the City in the procedure of acquiring and financing the water works, as set out below:

Second Party will prepare and furnish the City with:

Description, condition of, and estimate of value of the water works utility property in Terre Haute;

Audit and analysis of revenues and expenses and all costs of furnishing water service in Terre Haute each year for the past twenty years under private ownership;

Estimate of cost of furnishing service under city ownership and operation;

A forecast of operations under city ownership, showing the advantages to the City and showing how many years would be required to pay off the water revenue bonds out of water works revenues; and showing what funds can be set aside for replacements, etc.

Second Party will use his best efforts and ability to assist the City to obtain the water works at a fair price.

When and if an acquisition price satisfactory to the City is obtained, Then the City agrees to issue and deliver to Second Party the water revenue bonds necessary to provide proceeds to pay for the water works property and for the acquisition costs, and

Second Party agrees to take the revenue bonds on terms such that the interest cost to the City for the cash money required shall be four per cent (4%) per year.

This interest rate per year is based on the present financial market and in case of an upset in the bond market caused by war or other extraordinary conditions before the acquisition of water works is concluded, said Second Party and the City agree to make supplemental bond agreement.

If the City acquires the water works without starting legal condemnation proceedings there is no charge for services and expenses of Second Party.

If condemnation proceedings are instituted then the consideration to Second Party for services and expenses shall be an amount to be agreed upon by First and Second Parties, said amount to be payable only from proceeds of the water revenue bonds when and if issued.

Said Second Party agrees to start work immediately upon acceptance by the City of this agreement; and will continue working for and in behalf of

the City until the City takes definite action either to acquire the water works or to discontinue its efforts.

In WITNESS WHEREOF, The parties hereto have set their hands and seals this day of, 1936.

COMMUNICATIONS**MAYOR SUBMITS REQUEST FROM POLICEMEN AND FIREMEN**

Terre Haute, Indiana, August 7, 1936.

Members of the Common Council of the City of Terre Haute, Indiana.

Gentlemen:

You will find attached a communication which I received from the committeemen of Policemen and Firemen of our City requesting that the ten per cent, cut which was made in their salary be restored to them in the budget for 1937.

Yours truly,

SAM BEECHER, Mayor.

Terre Haute, Indiana, August 5, 1936.

Hon. Samuel Beecher,
Mayor, City Hall,
Terre Haute, Indiana.

Dear Sir:

The undersigned, joint committee representing the members of the Fire and Police Departments of the City, respectfully call your attention to the fact that in the summer of 1932, the Committee of the Common Council then in charge of the preparation of the budget for 1933, requested the police and firemen to accept a temporary reduction in their salaries to the extent of ten per cent. This request was made because of the general depression and the financial condition of the City; and it was then agreed to, with the provision that it would be effective only for the years 1933 and 1934. However, the salaries in both departments have never been restored to the 1932 levels.

The cost of uniforms remain at the high figures which have existed for the past several years; and the cost of other equipment which the members of the two departments are required to furnish remain the same. Furthermore, the cost of living has definitely increased in recent months, and it is a matter of common knowledge that further increases in the cost of necessities of life are certain to come.

Considering the general tendency in business and industrial circles to restore the wage and salary cuts which were made necessary a few years ago, the firemen and policemen of the City feel that the time has been reached when their salaries should be restored to the 1932 basis, as they have borne the reduction for two years longer than the period in which the reduction was to be in effect.

We therefore earnestly petition you, as Mayor of the City, to recommend the restoration of the 1932 salary scales in the Fire and Police Departments, in the 1937 budget for the City.

Respectfully submitted,

JOHN J. ROLL,
Chairman, Firemen's Committee,
FRANK KYLE,
JOHN R. BOHANNON,
RAY J. THOMPSON,
Chairman, Police Committee.
HARRY BARTON,
JOEL H. DEER,

On motion of Councilman Barrett, seconded by Councilman Mundell, the communication was ordered made part of the proceedings.

MAYOR'S RECOMMENDATION REGARDING SALARIES

Terre Haute, Indiana, August 7, 1936

Members of the Common Council of the
City of Terre Haute, Indiana.

Gentlemen:

You will observe that in the budget I am submitting to your Honorable Body I am not recommending any increase in the salary of any of my appointees.

Most of the cities in Indiana have already restored the ten per cent salary cut which was taken off of the Policemen and Firemen and as the safety of our property and lives is in the hands of the Policemen and Firemen and as the law expressly provides for the majority of such salary to be restored I am recommending that your body restore the full ten per cent cut which was made in the salary of our Policemen and Firemen.

Respectfully,

SAM BEECHER, Mayor.

On motion of Councilman Barrett, seconded by Councilman Mundell, the communication was ordered made a part of the proceedings.

RESOLUTION.

The prompt and effective action of Lieutenants Vance and Marshall in shooting down a desperado deserves the praise of the citizenry of Terre Haute.

On the night of July 14, 1936, these men met Jack Murray, alias A. M. Perkins, who, upon being asked to halt, turned and fired at the policemen. Their prompt action silenced his activities and saved their lives for the good of the City.

This is the second occasion the Council has had in the last few years to commend Lieutenant Vance.

The action of these lieutenants will do much to lift the reputation of the Terre Haute Police Department. The Common Council commends their bravery.

We herewith call upon and urge all civic institutions, organizations and citizens to take similar action in support of the Mayor, Board of Works, Chief of Police, and Civic Authorities in their stand, in order to preserve peace and industrial harmony in this community.

COMMUNICATIONS**MAYOR**

Terre Haute, Indiana, December 4, 1936.

To the Members of the Common Council of the
City of Terre Haute, Indiana.

Gentlemen:

I wish to thank the members of the Council for their splendid co-operation during the year of 1936. There are a few matters which have not been cleared up yet in which I, as your Mayor, am interested, and one or two new matters which I would like to mention in this communication.

MUNICIPAL OWNERSHIP

In January, 1936, I filed with your Honorable Body two petitions signed by several thousand of our citizens, requesting that the City of Terre Haute hold an election to decide whether or not the City of Terre Haute should purchase, operate and own the electric distribution system now operated in our City and the water works system now operated in our City. It is the legal duty of the City Council to set a date to vote on said petitions. Your Honorable Body has not yet set down a day upon which the citizens are to vote upon the question. I have filed with the Clerk and have requested that there be presented to your body tonight two additional Resolutions and two additional Ordinances concerning voting upon the municipal ownership of these two utilities. I am suggesting that at this meeting you set the date for the election upon the purchase of said utilities by the City of Terre Haute. I would suggest that these petitions be set for a vote some time during the month of March or April, 1937, so as to give all of our citizens and the utility companies ample opportunity to present their arguments for and against the municipal ownership of these utilities by the City of Terre Haute.

FIRE HOUSES

At your last regular meeting an Ordinance was introduced asking an appropriation and bond issue in the sum of \$25,000.00 for the purchase of materials with which to build and repair the fire houses which are so badly in need of repair and the Government is to furnish the labor for the same. This project was approved many months ago. Unless you take action in this matter some time soon I am afraid we will lose this project. The work upon some of these fire houses should be started immediately.

SEWER PROJECT

Terre Haute does need a better and larger sewer system. A great deal of money has been spent by our former administrations trying to relieve this condition, and what sewers we have in our City are in good condition, but they are insufficient to take care of the needs of a city this large.

I have filed with the City Clerk and asked that there be introduced before your body tonight an Ordinance requesting a bond issue of \$110,000.00 with which to buy materials while the Government is to furnish the labor and to put in more sewers in Terre Haute. My idea is that after this money has been raised by a bond issue and the new sewers started that the City file suit in court to construe the Wm. S. Rea will, under which approximately \$250,000.00 should be available to help put in a sewer system in Terre Haute. I contend that when we put this additional \$110,000.00 into sewers that we have complied with the provisions of the Wm. S. Rea will, and that the City would be entitled to this money to be used in sewers in Terre Haute. If we get this done Terre Haute will have one of the best equipped sewer systems of any city that I know of. This project which I submitted to the Government for additional sewers was approved several months ago and I am afraid unless action is taken in this matter that the city will lose the benefit thereof.

AIRPORT

If Terre Haute is to get the benefit of a big grant with which to build a real, modern, up-to-date airport it will be necessary that the City purchase a larger amount of ground than that which they now own, which has been set aside for aviation purposes. We should purchase five or six hundred acres of cheap, flat land farther away from our City so that these modern airships will be able to land upon our field. If we undertook to purchase additional land near our present airport site, the land being so valuable, it would cost the City too much money to purchase the same, whereas if we purchase cheap land it will be as practical for an airport as valuable land. Our present airport is too small and obsolete for the purpose of practical, modern, up-to-date aviation.

CEMETERIES

Terre Haute has sold about all the lots that we have in our two old cemeteries and we are facing the problem of acquiring additional land for a cemetery. This aviation field, which we now own and upon which we are paying by a former bond issue approximately \$128,000.00, being obsolete and out of date as an airport, I am advocating that the Board of Works and Safety take this land and make a cemetery thereof and sell lots to our citizens anywhere from \$10.00 to \$25.00 each, which would make it so that the common people of Terre Haute could each and every one purchase a cemetery lot, which money would pay for this field and the upkeep with a good profit to the City, and which would give to the common people once more a real value for the money which they are spending on the city improvements. We might just as well face the situation that soon the City will be forced to purchase additional ground for a cemetery and this looks to me like the most practical, sensible and business-like manner in which to do the same. I have filed with the City Clerk and requested that a Special Ordinance be presented to your body to-night, one a request from the Aviation Board and one for a request that the Circuit Court appoint appraisers for this present airport, and I am requesting that this Council for the sake of the common people of Terre Haute proceed with this matter as quickly as possible.

Again I wish to thank each and every member of the Council for their splendid co-operation throughout the year of 1936.

Respectfully submitted,

SAM BEECHER,
Mayor.

Ordered placed on file.

Gilbert Avenue from Walnut Street to Ohio Street;
Ohio Street from Gilbert Avenue to Fifteenth Street to connect with the
Hulman Street sewer;
Ohio Street from Nineteenth Street to Twenty-fifth Street;

and Ohio Street;
And said Alley from Fifth Street to a point One Hundred and Fifty (150)
feet East of Sixth Street together with all necessary laterals, and
other sewers, and,

a work project covering this construction of the sewers mentioned above, and,

WHEREAS, Under the Federal rules in connection with similar projects
it is necessary for the City to furnish the materials and the Federal Govern-
ment furnishes the labor and equipment for such construction, and the neces-
sary material will cost One Hundred and Ten Thousand Dollars (\$110,000.00),

I therefore recommend that the City borrow the sum of One Hundred and
Ten Thousand Dollars (\$110,000.00) to provide funds for purchase of the
necessary materials in the construction of said sewers and issue bonds in said
amount.

And I am enclosing herewith an Ordinance authorizing such bond issue
and recommend its passage.

Respectfully submitted,

KATHARINE BEECHER,
City Controller.

Accompanying the recommendation was the following:

Special Ordinance No. 16, 1936.

First Reading, December 4, 1936.

An Ordinance entitled, "An Ordinance authorizing the borrowing of One
Hundred and Ten Thousand Dollars (\$110,000.00) to provide funds for the pur-

chase of materials for certain sewer construction, providing for the issuance of bonds in the sum of One Hundred and Ten Thousand Dollars (\$110,000.00), fixing the denomination of said bonds and details in connection therewith," was introduced to first reading by Councilman Carl E. Mundell, and read by title only.

RECOMMENDATION OF THE BOARD OF AVIATION COMMISSIONERS.

To the President, Members of the Common Council
of the City of Terre Haute.

An effort has been made by the undersigned Board of Aviation Commissioners and interested officials to obtain financial aid from the United States Government for the improvement of the grounds occupied and controlled by said Board as an Airport and such aid is not available for the reason that the field now maintained is not of sufficient size and proper topography and the conditions surrounding said field are not such as to conform to the rules of the Federal Government in regard to Airports, and for these reasons Federal aid cannot be obtained without an expansion of the present field. This Board has under its control as such aviation field the following described Real Estate in Vigo County, Indiana:

Beginning at a point Three Hundred Sixty-three and seven tenths (363.7) feet south of the northwest corner of the southeast quarter ($\frac{1}{4}$) of Section Four (4), Township Eleven (11) North, Range Nine (9) West, running thence east Five Hundred Ninety-eight and eighty-four one hundrededths (598.84) feet, thence north Three Hundred Sixty-three and seven tenths (363.7) feet to the north line of said quarter section, or to the center of the highway known as Davis Avenue, thence east to a point Twelve Hundred Sixty-four and two tenths (1264.2) feet east of the north and south center line of said Section Four (4), thence South Twenty-five Hundred Twenty-five and nine tenths (2525.9) feet to a point Twelve Hundred Fifty-eight and three tenths (1258.3) feet east of said north and south center line of said Section Four (4), thence west to said north and south center line of said Section, thence north along said center line of said section to the place of beginning, consisting of Sixty-nine and Twenty-eight hundredths (69.28) Acres, more or less.

ALSO, One Hundred (100) Acres off the North end of the following described Real Estate:

Commencing at the southeast corner of the southeast quarter ($\frac{1}{4}$) of Section Nine (9), Township Eleven (11) North, Range Nine (9) West, running

thence north One Hundred Twenty (120) chains to the northeast corner of the southeast quarter ($\frac{1}{4}$) of Section Four (4), Township Eleven (11) North, Range Nine (9) West, running thence west Twenty and Eighty-five hundredths (20.85) chains, running thence south One Hundred Twenty (120) chains to the South line of the southeast quarter ($\frac{1}{4}$) of Section Nine (9), Township Eleven (11) North, Range Nine (9) West, running thence east Twenty and Eighty-five hundredths (20.85) chains to the place of beginning, excepting a strip of land deeded to the Terre Haute, Indianapolis and Eastern Traction Company off the east side of said Real Estate for the right of way in accordance with a certain deed recorded in Deed Record 120, at page 263 of the Records in the Recorder's office of Vigo County, Indiana.

In order to expand the present aviation field to conform to the conditions required by the United States Government to obtain such aid it will be necessary to condemn and purchase adjacent land and vacate certain highways, and the adjacent land is of great value and the expense incident to the condemnation thereof would be greater than is justified, and the vacation of necessary highways would result in great inconvenience to the citizens of Terre Haute and the public generally.

In view of these conditions the undersigned Board of Aviation Commissioners has deemed it to the best interests of the City and the public generally that the ground above described, now used by the Department of Aviation, be placed under the supervision of the Board of Public Works and Safety of the City of Terre Haute, for use by said Board of Public Works and Safety as such Board shall deem advisable for the best interests of the City of Terre Haute, and recommend that said Real Estate be appraised as in the case of sale of said property, and that an amount of money equal to the amount of such appraised value be appropriated to the Department of Aviation for the purpose of purchasing and equipping another site for an aviation field of sufficient size and proper conditions to conform to the regulations of the United States Government in order to obtain Federal financial aid and establish an airport of such size and conditions as to insure the services thereof to the best interests of the City and the public generally.

In conformity with such intentions and to carry out same we herewith submit an Ordinance providing for such appraisal and transfer of the control and management of such said Real Estate and recommend the uassage thereof.

Respectfully submitted,

PAUL PIERSON,
RAYMOND F. THOMAS,
HENRY S. LAMMERS,
Board of Aviation Commissioners.

Accompanying the recommendation was the following:
